Event Details

-accessed when the user clicks on a row in the "Your Events" dashboard widget

View All

-accessed when the user clicks "View All" at the bottom of the "Recents," "Favorites," ~~& "Your Events"~~ dashboard widgets
-the pop-up should have a title corresponding to which widget was clicked
-underneath, a scrollable list of all recents, favorites, ~~or scheduled events~~
-for recents, show the user's 10 latest searches

→ same idea for "Favorites"
